CAPITAL investments in the form of facilities and equipment are required for manufacturing almost all goods of economic significance. The productivity of these investments is a fundamental element of competition among companies and nations. Events that slow or interrupt the manufacturing process or degrade the product impair the competitiveness of a manufacturing enterprise. Career and Technical Education CTE Success Stories "The CTE classes I have taken have helped me decide that I want to pursue a career in construction. Because of my construction class I have learned so many valuable skills in building and interacting with others." Performance measurement in a quality management system Quality management system implementation has become a must for construction companies in some countries to be able to enter tenders. One of the most common quality standards is the ISO 9000 quality management standard and many companies seek ISO 9000 certification in today's highly competitive market.
